

I have been a financial supporter of KLOVE radio for several years. In my area, I listen to KLOVE on 88.7 FM, 1040 AM and 92.9 FM. AS you know, KLOVE is broadcast on regional translators, which would be affected by LPFM stations. I would estimate that I listen to KLOVE on one of these 3 stations 90% of my radio listening time. I LOVE KLove. The music is positive, uplifting and I never have to worry about what my family might hear over the airwaves. Plus, it is advertising free! Just great music and good information. It would be a great loss to our community if KLOVE were to be displaced by an LPFM broadcaster providing other programming.
